# What is VizZle™?

**VizZle™** is state-of-the-art web-based Special Education software for quick and easy creation and sharing of customized, interactive visual activities. With a searchable library of over 10,000 images, sound effects and video clips and the ability to upload personal images, the lessons created with VizZle™ can be used interactively on a computer or Smartboard or printed out for table top use. Monarch Teaching Technologies, Inc. (MTT) developed VizZle™ for use by teachers, clinicians or parents working with children with autism and other communication disorders.

## Program For Special Education and Technology Consultants

MTT recognizes that many of our users are guided in their choice of assistive technology by a special education and technology consultant. Consultants are tasked with reviewing the wide array of current technology available for the special education classroom and recommending products and services that will best serve their students.

### Special Offer

If you are a regional consultant in the position of recommending or administering special education technology, we'd like to help. MTT will make VizZle™ software available to you at no cost, and provide free "tours" and the training needed for you to decide if VizZle™ is right for your stakeholders.

If you decide to present VizZle™, we will work with you to introduce the product to your group. We can tailor product information and descriptions to your needs then send it to you or directly to your group members (whichever you choose). If the schedule of our training webinars doesn't work for your constituents, we will work with you to plan sessions that enable your group to train on the product successfully.

Just let us know what you need, and we will be happy to help.

## Three Ways You Can Share VizZle with Your Clients

1. You can refer your clients to signup for a free VizZle™ trial and training at [www.monarchtt.com](http://www.monarchtt.com).
2. You can schedule special group VizZle™ Webinar Training Sessions for your group.
3. Once you have participated in VizZle™ trainings, and you become familiar with VizZle™, you may want to demonstrate VizZle™ yourself to your clients.

### Important

If you would like to schedule a special group VizZle™ Webinar Training Session, please indicate your preferences for date and time (with at least one alternate) in an email to [support@monarchteachtech.com](mailto:support@monarchteachtech.com).

### Newsletter Description of VizZle

If you would like to include a description of VizZle™ in an invitation to attend a group VizZle™ Webinar Training Session, or in a general description or request to register for a free trial, please use the following:

VizZle™ is state-of-the-art web-based Special Education software for quick and easy creation and sharing of customized, interactive visual activities. With a searchable library of over 10,000 images, sound effects and video clips, and the ability to upload personal images, VizZle™ is revolutionizing the world of visual supports. The lessons created with VizZle™ can be used interactively on a computer or Smartboard or printed out for table top use. Lessons from the shared library can be quickly and easily edited. Templates to build lessons from scratch are available for stories, games, matching boards and more. VizZle™ is appropriate for any age, IEP goal, state standard or ability level. Easy sharing through student folders and the lesson library saves time and money. With an aggressive development schedule planned (including the addition of Topic Boards and Scene Cue displays funded by an NIH grant) VizZle™ provides seamless continuous upgrades of tools and content as part of the basic subscription. Developed by Monarch Teaching Technologies, Inc. in collaboration with The Monarch School for Children with Autism and Howard Shane PhD., from Childrens Hospital Boston/Harvard Medical School, VizZle™ is available online at [www.MonarchTT.com](http://www.MonarchTT.com).

For more information or to sign up for a free username and password, please contact **Brian Wiszniewski**, Account Executive, at **(216) 320-8941** or via email at [brian@monarchteachtech.com](mailto:brian@monarchteachtech.com).

## Our Mission

To empower educators, clinicians, and parents to effectively engage, communicate with, and educate individuals with Autism or other communication disorders.

## Our Partner

Vizzle™ software was created based on years of research done at the Monarch School For Children With Autism in Shaker Heights, Ohio. Founded in 2000, Monarch School is a chartered nonpublic school in Ohio that provides ideal special education programs for children with autism. The Monarch Boarding Academy is an extraordinary residential learning environment created specifically for children and teens on the Autism Spectrum.

## Our Company

Monarch Teaching Technologies, Inc. was founded in 2005 by Wingspan Care Group and MTT CEO Terry Murphy. MTT exclusively licensed intellectual property from Bellefaire JCB, a member of Wingspan and parent of the Monarch School for Children with Autism, and Childrens Hospital Boston/Harvard Medical School in order to develop software for the treatment of children with Autism.

## Our Solution

VizZle™ is a leading-edge, Web-based subscription service that gives educators access to the tools they need to create effective interactive materials for special education students. With an aggressive schedule of continuous product development and expansion, all new features and enhancements become seamlessly available to users as part of the basic subscription on an ongoing basis. Templates for individualized interactive stories, game boards, matching boards, token boards, timers and first-then boards are currently included, as well as Pix2Go for limitless print options for table top use. Additions scheduled for release soon include NIH-funded Scene Cue Displays and Topic Board templates.
