

2010 MTT/VizZle® Visual Learning TechGrant Awards Announced

Congratulations to all the participants in the 2010 **Visual Learning TechGrant** program. The response to the inaugural grants program was overwhelming, and it was a very difficult task to select just five districts to receive the Visual Learning TechGrant Awards. All the grant proposals were worthy—their stories compelling and the need obvious.

As a result, MTT decided to provide award levels beyond the original scope of the program, to acknowledge and support an additional **25 Honorable Mention Awards** and **80 Participation Awards**. In total, over 250 VizZle licenses were awarded to 110 educational institutions or districts.
